## KIWANIS VOLUNTEERS TO BUILD CUMBERLAND PARK PLAYGROUND

Volunteers to Participate in Community Build Day Friday, April 29<sup>th</sup>

**West Lafayette, Indiana, April 26, 2016**— The City of West Lafayette is pleased to announce that a new playground is to be built at Cumberland Park near the north shelter. The Lafayette Kiwanis Club has raised the funds to purchase the equipment, and the City of West Lafayette's Redevelopment Commission has provided the funds for the infrastructure surrounding the playground.

*Parks Superintendent Janet Fawley has said: "The construction of this playground will be of great benefit to the community! When they are at Cumberland Park, parents who have kids playing soccer or baseball, families at the Farmer's Market, as well as those who utilize the shelters will really appreciate having this playground available for their children to play on."*

Volunteers will be a part of the construction of this new playground during the "Community Build Day." Volunteers from the Kiwanis Club will work alongside Park Staff and a professional installer to construct this playground on Friday, April 29<sup>th</sup>. Following the playground construction, a contractor will follow-up to install drainage tiles and sidewalks. Kiwanis will then return to fill in the area with safety surfacing made of engineered wood fiber.

A dedication date will be announced once the construction of the playground and amenities have been completed.

If you would like more information about this topic, please contact Janet Fawley, Parks Superintendent at 765-775-5112 or email at [jfawley@wl.in.gov](mailto:jfawley@wl.in.gov).
